HAGAR ARAFA

JUNIOR DATA ENGINEER | PYTHON | SQL SERVER | SSIS | ETL

Alexandria, Egypt | hagar.arafa.tech@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Junior Data Engineer and Mathematics graduate with hands-on project experience in ETL, data integration, Python-based data processing, and relational databases. Worked with SQL Server, SSIS, T-SQL, Python, and Pandas across practical projects. Currently developing geospatial database experience with PostgreSQL, PostGIS, Docker, and GeoPandas. Strong analytical thinking and structured problem-solving skills.

TECHNICAL SKILLS

Programming	Python
Databases	Microsoft SQL Server, PostgreSQL, SQL, T-SQL, relational database design
ETL & Integration	SSIS, ETL workflows, data extraction, transformation, and loading
Data Processing	Pandas, NumPy fundamentals, data cleaning, validation, JSON, CSV
Data Collection	Python Requests, REST APIs, Selenium, web scraping
Geospatial & Tools	PostGIS, GeoPandas, Docker, pgAdmin, Git, GitHub, VS Code, Jupyter Notebook

SELECTED PROJECTS

Telecom Data Integration
SQL Server | SSIS | ETL
Completed ETL project processing 13 telecom CSV source files, with SSIS workflows for extraction, transformation, and loading into SQL Server.

Shoreline Analytics – Coastal Erosion & Risk Mapping
PostgreSQL | PostGIS | Docker | Python | GeoPandas
Graduation project in progress. Responsible for database design and planned geospatial data management and SQL-based risk assessment components.

Naukrigulf Data Engineer Job Scraper
Python | Selenium | Pandas
Collected 90 job listings, extracted structured listing details, and exported the results to CSV.

Job Listings Data Collection via REST API
Python | Requests | Pandas
Retrieved and processed approximately 250 job-market records from the ArbeitNow public API.

TRAINING

Digital Egypt Pioneers Initiative (DEPI) – Data Engineering Track
Practical training in Python, SQL/T-SQL, database design, data processing, APIs, and ETL concepts.

EXPERIENCE

Online Mathematics Teacher | Remote | Approximately 2 years
Delivered online lessons, managed instructional activities, monitored learner progress, and used performance analysis to identify learning gaps. Developed communication, analytical, and problem-solving skills.

EDUCATION

Bachelor of General Mathematics | Faculty of Education, Kafrelsheikh University | 2021–2025
One-Year Teacher Preparation Diploma in Mathematics | AASTMT, Alexandria
